

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF FISH AND GAME

333 RASPBERRY ROAD
ANCHORAGE, ALASKA 99502

9 November 1982

Bill Welch
National Park Service
540 West Fifth Avenue
Anchorage, AK 99502

Dear Bill:

Enclosed are the State's "Resource Management Recommendations" for each of the thirteen conservation system units under management of the National Park Service. If we revise these documents in the future, we will provide you updated copies.

Information and recommendations contained in these documents represent existing management policies and objectives, as well as identification of management issues and solutions, for the areas adjacent to, and within, National Park System units in Alaska. Adoption of these recommendations will ensure continuance of traditional uses as required in ANILCA, while concurrently providing sound conservation of the various natural resources. We believe these documents will assist your efforts to meet the Administrative Provisions required of the National Park Service in Title XIII of ANILCA.

Our office continues to coordinate the State's information and involvement for conservation system unit planning required of the federal agencies in ANILCA. If we can be of further assistance in your efforts, please do not hesitate to call 267-2202.

Sincerely,

Sterling Eide
State CSU Coordinator
